

# "My Queen of Hearts"

By Marty McKenna

Grandma, you have a heart that is bigger and warmer than the  
sun

All of the grandchildren you have, you spread your love to each  
one

Like a coach, you give the best advice in the world to me

You always make time for me even when you are busy

Like Santa Clause, you give me presents, gifts, and bundles of  
joy

You are a very kind person, and sweeter than Chips Ahoy

Like the bright flowers in your backyard, Grandma, you are  
brighter

To all of your grandkids you are a savior, like a fire fighter

When I go to your house, we have never ending conversations

Before we watch movies, we add to our never ending popcorn  
combinations

With all the movies we have watched together with lead  
characters in the fine arts

Whenever we get to play cards together, you will always forever  
be my beloved queen of

hearts
